

14 October 2015

Dear colleague

Packing bags for ICT2015? Don't forget the children!

As someone with a keen interest in the latest developments regarding the internet, you may have registered and are looking forward to attending the **ICT 2015 Innovate, Connect, Transform** conference in Lisbon, Portugal, during 20–22 October 2015.

And so are we. eNACSO – a Network of 23 leading children's rights/protection NGOs funded by EC under the Safer Internet Programme – is uniquely placed to detect and act on emerging trends of the digital world in which children are fully immersed and active participants. eNACSO has been selected to hold a Networking session with the title "**Where is the child in all this?**" on **Wednesday 21/10/2015 (16:50-17:35h) in Room 9** at the conference centre.

With so many important sessions and discussions on offer, the choice is enormous. We hope that you will make time in your personal conference schedule to take part in our **uniquely child-focused session**. eNACSO aims to ensure that issues concerning children are taken into consideration, by bringing the child's perspective to ICT2015. Our session will provide a space for you to reflect on your organisation's policies and practice in this regard, share your ideas, and find out how you might collaborate with eNACSO in future.

You will have an opportunity to participate in two World Café-style discussions on children participating in digital policy-making, and **your views really matter to us**. Table 1 will focus on Children & new technologies, and Table 2 on Detecting and addressing legislative gaps and advocating for the safety of children using new technologies.

Please join us for a short and snappy 45 minute thought-sharing session in Lisbon. We look forward to welcoming you. Don't be late as the number of participants is limited due to the room size. Please don't hesitate to get in touch with me if you have any queries.

Yours sincerely

Flaminia Frinchi
